

# Groups

Uniting Communities.

# You work hard

to attract new members

to engage them in your conferences

to sell tickets and finance your operations

# But how well do you engage your alumni?

How do you continue your relationship with  
everyone who attended your past conferences?

# Blasting emails is ineffective

*“Please come to our events”*

*“please buy more tickets”*

???

and impersonal.

# What they see

# Result:

Average organizer we meet  
has a 2-5% response rate  
from their marketing campaigns.

What if there was an app  
that **united** all your attendees  
from all past conferences  
in an **online** community?

## Without the App, Organizers...

## With the App, Members...

organize large events

get together on their own

promote on social media

invite each other to events

send out email campaigns

add to their own calendar

collect payments for events

pay through app, one tap

recruit new members

members invite guests

make them fill out forms

interactive onboarding

keep static spreadsheets

maintain up-to-date profile

compile reports for sponsors

generated on demand

# Email

# App!

Today almost everyone has **smart phones**.

If you develop an **app** for your members,  
you'll help them **communicate** among themselves,  
instead of just **receiving** your announcements.

# The time to start is now.

Give them an app to use in your conference.

And they will keep using it as alumni.

# During Program

People meet in real life  
Community is relevant

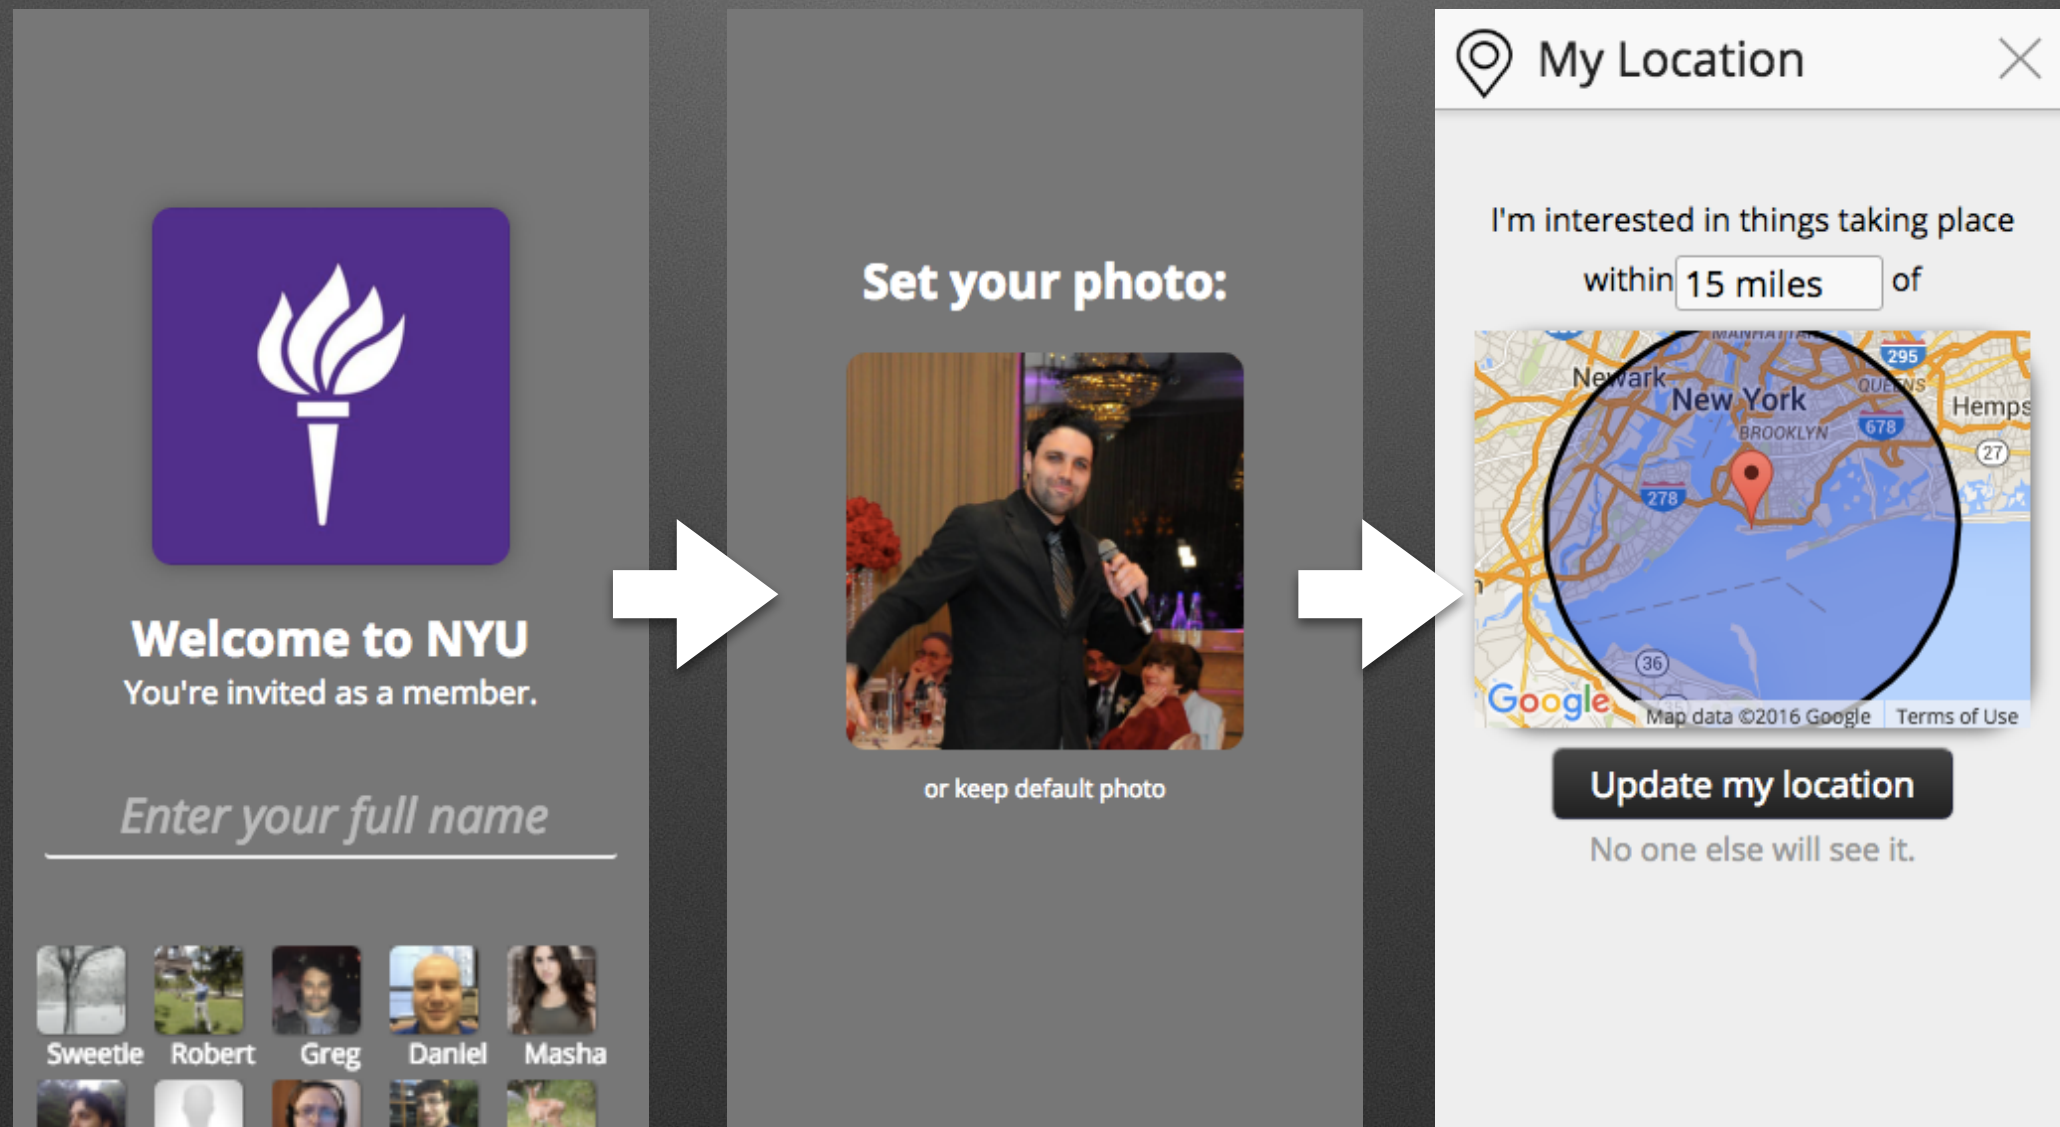

# After Program

People still meet in real life  
Community remains relevant,  
under your brand.

# Onboarding

We will make it **simple** and **fun** to get started

# People Connect

by interests, clubs, cohorts (Stern class of 2012)

In each of the next 10 categories, tap all the activities you are interested in. This is how you connect with other people in the community.

↓ Get Started

## Dining

What would you go out to eat?

African, American, Chinese, Dairy, Diets, French, Indian, Italian, Japanese, Kosher, Meat, Mexican, Middle Eastern, Picnic, Russian & Ukrainian, Themed, Turkish, Uzbek, Vegetarian, Wine and Drinks

↓ Next Category

## Adventure

Where would you like to go?

### Travel

Africa, Asia, Australia, Caribbean, Cruises, Culture, Europe (North), Europe (South), Exotic, Festivals, Hot Air Balloons, Middle East, Nature, Russia, Tours, Trains, USA (East Coast), USA (Midwest), USA (West Coast)

### Outdoors

Amusement Parks, Animals, Backpacking, Camping, Fishing, Hiking, Hunting, Mountain Biking

Just some examples. We will custom build for your needs.

# What This Means For You

Alumni feel like you developed something **for them**, instead of feeling like you are asking for something.

They're able to connect on their own time, around their own interests, and feel a sense of community.

Now, all your official events & fundraisers are **larger** and more **successful** by being promoted **in your own app**.

And unlike with other closed source solutions, you own your own **database** and **brand** and **relationships**.

# Privacy

We take privacy **very seriously**.  
That's why it's built into everything we make:

Can **members** see other **staff members?**  
**guests**

Email addresses  
Mobile numbers

Address book  
integration

Never reveal locations  
of members, only venues

Attendee lists  
can be hidden

# Standard & Custom Features

We work with you to develop the features **you** need.

User Accounts

Your Brand

Web & Native Apps

Manage Interests / Topics

Address Book Integration

Chat and Videoconferencing

Reporting and Analytics

Attendance & Event  
Registration

Let's [schedule a meeting](#) to get into the details.

# Qbix

We build apps  
for Communities.

(since 2011).

Community

Let's help **you**  
turn **attendees**  
into **participants**!
